

J. J. Keller® Driver Services

Integration Capabilities

Our complete suite of driver qualification services offer **Application Program Interfaces (APIs)** that **seamlessly and securely integrate the data we collect with your driver application, HRIS or other systems**. These integrations ensure accurate driver rosters and increase visibility of driver compliance information across your entire driver employment process.

RECRUITMENT >>

Collect DOT-compliant driver applications.

PRE-HIRE >>

Screen potential new driver hires using the drivers' employment application data.

We provide employment background screenings, including:

- ✓ **Employment verification**
- ✓ **Motor vehicle reports**
- ✓ **Pre-employment screenings**

PRE-QUALIFICATION >>

Pre-qualify new drivers before they're hired using the collected data.

We provide:

- ✓ **Drug & Alcohol Clearinghouse pre-employment query results**, along with annual query results
- ✓ Drivers' **safety performance history records (SPHR)**

ONGOING QUALIFICATION

Ensure ongoing driver qualification compliance using the data we continually collect.

We provide:

- ✓ Drivers' **DQ file contents**, manage it for compliance, and provide notifications of issues
- ✓ Drivers' **drug & alcohol testing results**, and manage the entire process
- ✓ Data from drivers' **motor vehicle records**
- ✓ Data on drivers' **compliance status**
